ABOUT ME

As a highly motivated and results-driven Computer Science graduate, I am deeply passionate about harnessing technology to solve real-world problems. My academic foundation spans IT support, software engineering, and networking, equipping me with the skills needed to approach challenges with both creativity and precision. Throughout my undergraduate journey, I led several impactful projects that strengthened my abilities in problem-solving, collaboration, and independent research.

Now, I am eager to deepen my expertise and contribute meaningfully to innovative research that pushes the boundaries of technology. I see this next academic step not only as a chance to grow but also as a platform to make a lasting difference in the communities I care about.

EDUCATION AND TRAINING

20/09/2019 – 21/07/2023 Addis Ababa, Ethiopia

Bachelor of Science in Computer Science Unity University

Completed a Bachelor of Science in Computer Science from [University Name] in 2023, with a strong foundation in software engineering, data structures, algorithms, computer networking and data communication. Key coursework included Operating Systems, Database Systems. Successfully served as a System Analyst in the final year project, where I conducted thorough requirements analysis, developed system specifications, and collaborated with the team to ensure the system met user needs. Developed strong skills in programming, problem-solving, teamwork through coursework, projects, and [mention any extracurricular activities].

WORK EXPERIENCE

23/01/2025 – CURRENT Addis Ababa, Ethiopia

Project Lead | Technical Associate WeyraET

- Led the development of large-scale EdTech solutions in collaboration with EthioTelecom, aimed at supporting national exam preparation for Ethiopian high school students.
- Designed and deployed scalable digital tools that serve thousands of learners in under-resourced communities.
- Applied technical expertise in software development and cybersecurity to create secure, user-centric educational platforms.
- Coordinated multi-disciplinary teams, fostering collaboration through empathetic leadership and strategic communication.
- Managed full project lifecycle: planning, technical execution, stakeholder coordination, and final delivery.

08/08/2023 Addis Ababa, Ethiopia

Junior Front-End Developer KMI Networks

As a Junior Frontend Developer, I was responsible for developing and maintaining user-friendly and responsive web applications. My key responsibilities included: writing clean, well-documented HTML, CSS, and JavaScript code, integrating APIs, conducting thorough testing and debugging; and collaborating with cross-functional teams to deliver high-quality projects within deadlines.
